INDEX TO VOLUME 50

Book reviews are grouped together and are indexed under that heading in alphabetical order, under the letter B.

Addison's disease, treatment of Addison's disease with cortin (Hartman); report of 4 cases, 394

Agranulocytosis: See Angina, agranulocytic

Albright, F.: Treatment of Addison's disease with cortin (Hartman); report of 4 cases, 394

Althausen, T. L.: Influence on carbohydrate metabolism of experimentally induced hepatic changes; chloroform poisoning, 257

Influence on carbohydrate metabolism of experimentally induced hepatic changes; fasting and administration of thyroxine, 46

Influence on carbohydrate metabolism of experimentally induced hepatic changes; phosphorus poisoning, 58

Anemia associated with biliary fistula, 223

effects of prolonged liver dietary in pernicious anemia; case reports of 3 patients receiving liver therapy for 9½, 8 and 7 years, respectively, 124

fibromyoma of uterus, cardiac failure, anemia and edema, 306

liver extract intravenously, report of 10 cases, 27

pernicious, treatment with equine liver extract injected either subcutaneously or intravenously, 538

relations between primary hypochromic anemia and chlorosis, 328

sickle cell anemia, report of case, 635

Argon glow tube, graphic registration of heart sounds by, 913

Arteries, effect of digitalis on coronary flow, 668

Arthritis, chronic, clinical analysis of 350 cases, 926

sedimentation rate of blood corpuscles in synovial fluid and in plasma; method of estimation and significance in arthritis, 419

Asher, A. G.: Graphic registration of heart sounds by argon glow tube, 913

Asthma, two hundred and thirteen "cured" patients followed up 4 years later, 819

Azotemia: See Blood, nitrogen

Bacteria, epidemic of subclinical infection with Brucella, 373

Baird, P. C., Jr.: Treatment of Addison's disease with cortin (Hartman); report of 4 cases, 394

Balderston, S. V.: Anemia associated with biliary fistula, 223

Barron, M.: Importance of hepatomegaly and splenomegaly in differential diagnosis, 240

Bell, A.: Endemic nutritional edema; clinical findings and dietary studies, 843

Bence-Jones protein, hyperproteinemia due to Bence-Jones' protein in myelomatosis, 829

Bile ducts, cholesterol of blood plasma in hepatic and biliary diseases, 203

Bismuth diuresis and blood and urinary changes under clinical conditions, 142

Blood calcium: diffusible calcium of blood stream; influence of agents which affect blood calcium on calcium distribution and inorganic phosphate of serum, 855

experimental edema produced by plasma protein depletion, 488

hyperproteinemia due to Bence-Jones protein in myelomatosis, 829

maturing effect of roentgen rays on blood-forming cells, 836

methemoglobin in, 574

mitotic myelocytes in peripheral blood in case of myeloid leukemia in Negro, 908

nitrogen; azotemia due to low blood pressure; its occurrence in unusual case of acute rheumatic fever, 921

plasma, cholesterol of plasma in hepatic and biliary disease, 203

platelets, method for simultaneous enumeration of blood platelets and reticulocytes with consideration of normal blood platelet count in men and in women, 579

pressure; azotemia due to low blood pressure; its occurrence in unusual case of acute rheumatic fever, 921

relation of sugar to cholesterol in blood, 684

sedimentation rate of blood corpuscles in synovial fluid and in plasma; method of estimation and significance in arthritis, 419

sedimentation test as routine laboratory procedure; observations on 1100 persons, 569

sugar changes and insulin dosage, 511

variations in total blood lipid in alimentary lipemia, 37

Bloomfield, A. L.: Relations between primary hypochromic anemia and chlorosis, 328

Book Reviews:

Action of Muscles Including Muscle Rest and Muscle Re-Education; C. Mackenzie, 348

Blood Sugar in Normal and Sick Children with Special Reference to Coeliac Disease; E. Svensgaard, 958

Classic Descriptions of Disease; R. H. Major, 960

Clinical Endocrinology of Female; C. Mazer and L. Goldstein, 797

Criteria for Interpretation of Electrocardiograms; A. C. DeGraff, 648

Cytology and Cellular Pathology of Nervous System; W. Penfield, 508

Dickdarmschleimhaut, ihre normale und pathologische Funktion im Röntgenbilde; W. Knothe, 349

Diseases of Coronary Arteries (Myocarditis); D. C. Sutton and H. Lueth, 645

Entstehung, Erkennung und Behandlung innerer Krankheiten; L. Krehl, 797

Fractures; M. Sinclair, 798

Fraktionierte Lumbalpunktion bei otogenen Meningitiden; A. Westergaard, 799

50 Jahre Kongress für innere Medizin, 1882-1932; G. Klemperer, 510

BOOK REVIEWS—Continued

Fungous Diseases: Clinico-Mycological Text; H. C. Jacobson, 800

Guide to Radiologic Diagnosis in Heart Disease; G. Nemet, 647

Health Protection for Preschool Child; G. T. Palmer, M. Derryberry and P. Van Ingen, 509

Hépatites et cirrhoses. Classification, pathogénèse et morphogénèse des hepatites diffuses aiguës, subaiguës et chroniques d'après les notions récentes sur la physiopathologie hépato-biliare; G. Albot, 507

Herz und Angst; L. Braun, 350

Herzalternans; B. Kisch, 168

Herz- und Kreislaufinsuffizienz: Ein kurzes System der Störungen im Kreislaufsapparat; K. F. Wenckebach, 798

History of Medicine in the United States; F. R. Packard, 167

Kolloidreaktionen der Rückenmarkflüssigkeit. Technik, Klinik und Theorie; W. Schmitt, 509

Krankheitsanfänge bei chronischen Leiden; A. Fraenkel, 170

Man and Medicine: Introduction to Medical Knowledge; H. E. Segerist, 800

Nutrition; P. Carnot, M. Loeper and M. Villaret, 170

Pain in Pleura, Pericardium and Peritoneum. Clinical Study; J. A. Capps and G. H. Coleman, 648

Pathologische Physiologie; L. Krehl, 507

Problème sous-hepatiques; G. Parturier, 169

Proctoscopic Examination and Treatment of Hemorrhoids and Anal Pruritus; L. A. Buie, 960

Prohibiting Minds and Present Social and Economic Crises; S. Paton, 169

Psychology and Psychiatry in Pediatrics: The Problem; Subcommittee on Psychology and Psychiatry, White House conference on Child Health and Protection, 350

Quantitative Clinical Chemistry; J. P. Peters and D. D. Van Slyke, 168

Rheumatic Infection in Childhood; L. Findlay, 506

Sputum: Its Examination and Clinical Significance; R. Clifford, 799

Textbook of Laboratory Diagnosis with Clinical Applications for Practitioners and Students; E. E. Osgood and H. D. Haskins, 647

Traité de physiologie, normale et pathologique; G. H. Roger and L. Binet; volume 2, 647

Verhandlungen der Deutschen Gesellschaft für Kreislaufforschung. IV. Tagung, gehalten zu Breslau am 9. und 10. März, 1931; B. Kisch, 646

Zuckerkrankheit und ihre Behandlung im Kindesalter; R. Priesel and R. Wagner, 510

Bortz, E. L.: Diffuse hemorrhage from stomach, 1

Bowcock, H.: Mitotic myelocytes in peripheral blood in case of myeloid leukemia in a Negro, 908

Brandau, G. M.: Sickle cell anemia; report of case, 635

Brandman, H.: Fibromyoma of uterus, cardiac failure, anemia and edema, 306

Brown, G. E.: Thrombo-angiitis obliterans among women, 884

Brucella Abortus: See under Bacteria

Bruger, M.: Urea clearance test as index of renal function; effect of ingestion of carbohydrate (dextrose), 358

Urea clearance test as index of renal function; studies of normal subjects, 351

Urea clearance test as index of renal function; studies of patients with Bright's disease, 544

Urea clearance test as index of renal function; urea clearance test in relation to other tests and measures of renal function, 556

Calhoun, A. W.: Treatment of lobar pneumonia with carbon dioxide and oxygen 269

Calhoun, J. A.: Congestive heart failure; mechanism of dyspnea on exertion, 690

Campbell, R. A.: Normal renal threshold for dextrose, 952

Cancer: See under names of organs and regions

Carbohydrate, influence on carbohydrate metabolism of experimentally induced hepatic changes; chloroform poisoning, 257

influence on carbohydrate metabolism of experimentally induced hepatic changes; fasting and administration of thyroxine, 46

influence on carbohydrate metabolism of experimentally induced hepatic changes; phosphorus poisoning, 58

metabolism in hemochromatosis, 226

urea clearance test as index of renal function; effect of ingestion of carbohydrate (dextrose), 358

Chloroform poisoning; influence on carbohydrate metabolism of experimentally induced hepatic changes; chloroform poisoning, 257

Chlorosis, relations between primary hypochromic anemia and chlorosis, 328

Cholesterol of blood plasma in hepatic and biliary diseases, 203

relation of sugar to cholesterol in blood, 684

Colon, experimental low colonic obstruction, 150

Comroe, B. I.: Hyperparathyroidism without parathyroid tumor; report of case improved by partial parathyroidectomy, 317

Cortin, treatment of Addison's disease with cortin (Hartman); report of 4 cases, 394

Crandall, L. A., Jr.: Experimental low colonic obstruction, 150

Cushing, H.: Specific dynamic action of protein in patients with pituitary disease, 649

Dameshek, W.: Method for simultaneous enumeration of blood platelets and reticulocytes with consideration of normal blood platelet count in men and in women, 579

Davis, D.: Localization of afferent visceral impulses in spinal cord, 470

Dextrose, decreased dextrose tolerance in acute infectious diseases, 801

normal renal threshold for dextrose, 952

Dick, G. F.: Decreased dextrose tolerance in acute infectious diseases, 801

Dieckmann, W. J.: Methemoglobinemia, 574

Digitalis, combined actions of quinidine and digitalis on heart; experimental study, 766

diuretic effects and changes in blood and urinary metabolites after digitalis in normal and in edematous persons, 486

Digitalis—Continued
effect of digitalis on coronary flow, 668

Diuresis, bismuth diuresis and blood and urinary changes under clinical conditions, 142
diuretic effects and changes in blood and urinary metabolites after digitalis in normal and in edematous persons, 480

Donley, D.: Endemic nutritional edema; clinical findings and dietary studies, 843

Dooley, P.: Undulant fever; epidemic of subclinical infection with Brucella, 373

Dotti, L. B.: Insulin dosage and blood sugar changes, 511

Duncan, W.: Hyperproteinemia due to Bence-Jones protein in myelomatosis, 829

Duodenum, experimental studies in gastric physiology; evaluation of rôle of duodenal regurgitation in control of gastric acidity in man (Boldyreff theory), 605
nontropical sprue with duodenal involvement and tetany, 595

Dyspnea, congestive mechanism of dyspnea on exertion, 690

Edema, diuretic effects and changes in blood and urinary metabolites after digitalis in normal and in edematous persons, 480
endemic nutritional edema; clinical findings and dietary studies, 843
experimental edema produced by plasma protein depletion, 488

Electrocardiogram: See under Heart

Epstein, E. Z.: Cholesterol of blood plasma in hepatic and biliary diseases, 203

Ergosterol, production of nonfatal vascular sclerosis in rabbits by means of viosterol (irradiated ergosterol), 443

Erythrocytes, sedimentation: See Blood, sedimentation

Fallon, M.: Nontropical sprue with duodenal involvement and tetany, 595

Fenn, G. K.: Effect of digitalis on coronary flow, 668

Ferris, H. W.: Hemochromatois and purpura, 232

Fetter, D.: Relation of pain of peptic ulcer to gastric motility and acidity, 338

Fibromyoma of uterus, cardiac failure, anemia and edema, 306

Fistula biliary, anemia associated with, 223

Fouts, P. J.: Use of liver extract intravenously, report of 10 cases, 27

Fowler, W. M.: Effects of prolonged liver dietary in pernicious anemia; case reports of 3 patients receiving liver therapy for 9½, 8 and 7 years, respectively, 124

Frank, H.: Endemic nutritional edema; clinical findings and dietary studies, 843

Fulton, M. N.: Specific dynamic action of protein in patients with pituitary disease, 649

Gastric Ulcer: See Peptic ulcer

Gastroduodenal lesions, intrinsic gastroduodenal lesions as causative factors of hematemesis, 621

Gibson, R. B.: Effects of prolonged liver dietary in pernicious anemia; case reports of 3 patients receiving liver therapy for 9½, 8 and 7 years, respectively, 124

Gilbert, N. C.: Effect of digitalis on coronary flow, 668

Goiter, solar radiation in relation to endemic goiter, 76

Gold, H.: Combined actions of quinidine and digitalis on heart; experimental study, 766

Goode, E. U.: Localization of afferent visceral impulses in spinal cord, 470

Grady, E.: Dietary practices in relation to incidence of pellagra; study of family dietaries in Leon county, Florida, 362

Greenberg, D. M.: Diffusible calcium of blood stream; influence of agents which affect blood calcium on calcium distribution and inorganic phosphate of serum, 855

Gunther, L.: Diffusible calcium of blood stream; influence of agents which affect blood calcium on calcium distribution and inorganic phosphate of serum, 855

Haden, R. L.: Hyperproteinemia due to Bence-Jones protein in myelomatosis, 829

Hanson, J. F.: Treatment of lobar pneumonia with carbon dioxide and oxygen, 269

Harrison, T. R.: Congestive heart failure; mechanism of dyspnea on exertion, 690

Harrison, W. G.: Congestive heart failure; mechanism of dyspnea on exertion, 690

Haskins, H. D.: Normal renal threshold for dextrose, 852

Heart: See also Myocardium; Pericarditis
branch arborization and complete heart block, 730
electrocardiograms: clinical significance of electrocardiograms with large Q waves in lead III, 435
electrocardiogram: low voltage in electrocardiogram; occurrence and clinical significance, 380
failure, congestive heart failure: mechanism of dyspnea on exertion, 690
failure, fibromyoma of uterus, cardiac failure, anemia and edema, 306
fibrillation; transient ventricular fibrillation; clinical and electrocardiographic manifestations of syncopal seizures in patient with auriculoventricular dissociation, 450
fibromyoma of uterus, cardiac failure, anemia and edema, 306
graphic registration of heart sounds by argon glow tube, 913
myocardial infarction or gross fibrosis; analysis of 100 necropsies, 131
resuscitation of stopped heart by intracardial therapy, experimental use of artificial pacemaker, 283

Hematemesis: See Stomach, hemorrhage

Hemochromatosis and purpura, 232
carbohydrate metabolism in case of, 226

Hitzrot, L. H.: Hyperparathyroidism without parathyroid tumor, report of case improved by partial parathyroidectomy, 317

Horton, B. T.: Thrombo-anglitis obliterans among women, 884

Hyman, A. S.: Resuscitation of stopped heart by intracardial therapy; experimental use of artificial pacemaker, 283

Hypertension: See Blood pressure

Hyperthyroidism: See under Thyroid

Hypophysis: See Pituitary body

Infectious diseases, decreased dextrose tolerance in acute infectious diseases, 801

Insulin dosage and blood sugar changes, 511

Isaacs, R.: Maturing effect of roentgen rays on blood-forming cells, 836

Ivy, A. C.: Pernicious anemia; treatment with equine liver extract injectable either subcutaneously or intravenously, 538

Jacobson, S.: Toxicity of mersalyl (salyrgan); clinical and anatomic study, 158

Jezer, A.: Transient ventricular fibrillation; clinical and electrocardiographic manifestations of syncopal seizures in patient with auriculoventricular dissociation, 450

Katz, A. B.: Experimental studies in gastric physiology; evaluation of rôle of duodenal regurgitation in control of gastric acidity in man (Boldyreff theory), 605

Kidney function, normal renal threshold for dextrose, 952

function; urea clearance test as index of renal function; effect of ingestion of carbohydrate (dextrose), 358

function; urea clearance test as index of renal function; studies of normal subjects, 351

function; urea clearance test as index of renal function, studies of patients with Bright's disease, 544

function; urea clearance test as index of renal function; urea clearance test in relation to other tests and measures of renal function, 556

weight, body size and renal function, 590

Kling, D. H.: Sedimentation rate of blood corpuscles in synovial fluid and in plasma; method of estimation and significance in arthritis, 419

Lepore, M. J.: Experimental edema produced by plasma protein depletion, 488

Leukemia, mitotic myelocytes in peripheral blood in case of myeloid leukemia in Negro, 908

Lichtman, S. S.: Liver function in hyperthyroidism, 721

Lipemia, variations in total blood lipid in alimentary lipemia, 37

Lisa, J. R.: Myocardial infarction or gross fibrosis; analysis of 100 necropsies, 131

Litman, A. B.: Importance of hepatomegaly and splenomegaly in differential diagnosis, 240

Liver, chemistry and metabolism in experimental yellow fever in Macacus rhesus monkeys; bromsulphalein liver function test and van den Bergh reaction, 876

cholesterol of plasma in hepatic and biliary diseases, 203

effects of prolonged liver dietary in pernicious anemia; case reports of 3 patients receiving liver therapy for 9½, 8 and 7 years, respectively, 124

extract, intravenously, report of 10 cases, 27

Liver—Continued

extract, treatment of pernicious anemia with equine liver extract injectable either subcutaneously or intravenously, 538

function in hyperthyroidism, 721

importance of hepatomegaly and splenomegaly in differential diagnosis, 240

influence on carbohydrate metabolism of experimentally induced hepatic changes; chloroform poisoning, 257

influence on carbohydrate metabolism of experimentally induced hepatic changes; fasting and administration of thyroxine, 46

influence on carbohydrate metabolism of experimentally induced hepatic changes; phosphorus poisoning, 58

McCoord, A. B.: Experimental edema produced by plasma protein depletion, 488

MacKay, E. M.: Kidney weight, body size and renal function, 590

McPhedran, F. M.: Exogenous tuberculous infection of adults; marital tuberculosis, 945

March, J. P.: Congestive heart failure; mechanism of dyspnea on exertion, 690

Mediastinum, stenosis of superior vena cava due to mediastinal tuberculosis, 759

Mersalyl, toxicity of mersalyl (salygran) clinical and anatomic study, 158

Methemoglobinemia, 574

Meyer, A. E.: Pernicious anemia; treatment with equine liver extract injectable either subcutaneously or intravenously, 538

Meyer, J.: Relation of pain of peptic ulcer to gastric motility and acidity, 338

Milles, G.: Stenosis of superior vena cava due to mediastinal tuberculosis, 759

Modell, W.: Combined actions of quinidine and digitalis on heart; experimental study, 766

Moen, J. K.: Quinine derivatives and specific immune serum in pneumococcus infection, 276

Morrell, C. A.: Chemistry and metabolism in experimental yellow fever in Macacus rhesus monkeys; bromsulphalein liver function test and van den Bergh reaction, 876

Mosenthal, H. O.: Relation of sugar to cholesterol in blood, 684

Urea clearance test as index of renal function; effect of ingestion of carbohydrate (dextrose), 358

Urea clearance test as index of renal function; studies of normal subjects, 351

Urea clearance test as index of renal function; studies of patients with Bright's disease, 544

Urea clearance test as index of renal function; urea clearance test in relation to other tests and measures of renal function, 556

Myeloma, hyperproteinemia due to Bence-Jones protein in myelomatosis, 829

Myocardium, myocardial infarction or gross fibrosis; analysis of 100 necropsies, 131

Nephrosclerosis: See under Kidney

Opie, E. L.: Exogenous tuberculous infection of adults; marital tuberculosis, 945

Osgood, E. E.: Normal renal threshold for dextrose, 952

Parathyroid tumor, hyperparathyroidism without, report of case improved by partial parathyroidectomy, 317

Pellagra, dietary practices in relation to incidence of pellagra; study of family dietaries in Leon county, Florida, 362

Peptic ulcer, relations of pain of peptic ulcer to gastric motility and acidity, 338

Pericarditis, chronic adherent, 171

calcification of pericardium, 184

fibrinous, and "soldier's patches," 410

terminal, 415

with effusion, 192

Peters, J. P.: Carbohydrate metabolism in case of hemochromatosis, 226

Phosphorus poisoning, influence on carbohydrate metabolism of experimentally induced hepatic changes; phosphorus poisoning, 58

Pituitary body, specific dynamic action of protein in patients with pituitary disease, 649

Pneumococcus infections, quinine derivatives and specific immune serum in, 276

Pneumonia, treatment of lobar pneumonia with carbon dioxide and oxygen, 269

Price, L.: Combined actions of quinidine and digitalis on heart; experimental study, 766

Protein, hyperproteinemia due to Bence-Jones' protein in myelomatosis, 829

specific dynamic action of protein in patients with pituitary disease, 649

Purpura and hemochromatosis, 232

Quinidine, combined actions of quinidine and digitalis on heart; experimental study, 766

derivatives and specific immune serum in treatment of pneumococcus infection, 276

Rackemann, F. M.: Asthma: 213 "cured" patients followed up 4 years later, 819

Radl, R. B.: Nontropical sprue with duodenal involvement and tetany, 595

Reimann, H. A.: Quinine derivatives and specific immune serum in pneumococcus infection, 276

Resuscitation of stopped heart by intracardial therapy, experimental use of artificial pacemaker, 283

Reticulocytes, method for simultaneous enumeration of blood platelets and reticulocytes with consideration of normal blood platelet count in men and women, 579

Rheumatic fever, azotemia due to low blood pressure; its occurrence in unusual case of acute rheumatic fever, 921

Richter, O.: Pernicious anemia: treatment with equine liver extract injectable either subcutaneously or intravenously, 538

Ring, A.: Myocardial infarction or gross fibrosis; analysis of 100 necropsies, 131

Rivers, A. B.: Intrinsic gastroduodenal lesions as causative factors of hematemesis, 621

Roberts, G. M.: Experimental low colonic obstruction, 150

Roentgen rays, maturing effect of roentgen rays on blood-forming cells, 836

Rosenthal, S. R.: Branch arborization and complete heart block, 730

Salyrgan: See Mersalyl

Sandels, M. R.: Dietary practices in relation to incidence of pellagra; study of family dietaries in Leon county, Florida, 362

Schattenberg, H. J.: Sedimentation test as routine laboratory procedure; observations on 1,100 persons, 569

Schloss, E. M.: Experimental studies in gastric physiology; evaluation of rôle of duodenal regurgitation in control of gastric acidity in man (Boldyreff theory), 605

Schwartz, S. P.: Transient ventricular fibrillation; clinical and electrocardiographic manifestations of syncopal seizures in patient with auriculoventricular dissociation, 450

Sclerosis, production of nonfatal vascular sclerosis in rabbits by means of viosterol (irradiated ergosterol), 443

Scott, E. L.: Insulin dosage and blood sugar changes, 511

Shambaugh, P.: Azotemia due to low blood pressure: its occurrence in unusual case of acute rheumatic fever, 921

Shay, H.: Experimental studies in gastric physiology; evaluation of rôle of duodenal regurgitation in control of gastric acidity in man (Boldyreff theory), 605

Shirer, J. W.: Hyperproteinemia due to Bence-Jones protein in myelomatosis, 829

Smith, H. L.: Pericarditis: calcification of pericardium, 184

Pericarditis: chronic adherent pericarditis, 171

Pericarditis; fibrinous pericarditis and "soldier's patches," 410

Pericarditis, terminal pericarditis, 415

Pericarditis with effusion, 192

Smith, J. H.: Solar radiation in relation to endemic goiter, 76

Spies, T. D.: Production of nonfatal vascular sclerosis in rabbits by means of viosterol (irradiated ergosterol), 443

Spinal cord, localization of afferent visceral impulses in spinal cord, 470

Splenomegaly, importance of hepatomegaly and splenomegaly in differential diagnosis, 240

Sprue, nontropical sprue with duodenal involvement and tetany, 595

Stetson, R. P.: Carbohydrate metabolism in case of hemochromatosis, 226

Hemochromatosis and purpura, 232

Stockton, A. B.: Bismuth diuresis and blood and urinary changes under clinical conditions, 142

Diuretic effects and changes in blood and urinary metabolites after digitalis in normal and in edematous persons, 480

Stomach, diffuse hemorrhage from, 1

experimental studies in gastric physiology; evaluation of rôle of duodenal regurgitation in control of gastric acidity in man (Boldyreff theory), 605

intrinsic gastroduodenal lesions as causative factors of hematemesis, 621

relation of pain of peptic ulcer to gastric motility and acidity, 338

Ulcer: See Peptic Ulcer

Strauss, A. A.: Relation of pain of peptic ulcer to gastric motility and acidity, 338

Synovial fluid, sedimentation rate of blood corpuscles in synovial fluid and in plasma; method of estimation and significance in arthritis, 419

Tarr, L.: Toxicity of mersalyl (salyrgan) clinical and anatomic study, 158

Tetany, nontropical sprue with duodenal involvement and tetany, 595

Thoenes, E.: Influence on carbohydrate metabolism of experimentally induced hepatic changes; chloroform poisoning, 257

Influence on carbohydrate metabolism of experimentally induced hepatic changes; fasting and administration of thyroxine, 46

Influence on carbohydrate metabolism of experimentally induced hepatic changes; phosphorus poisoning, 58

Thrombo-angiitis obliterans among women, 884

Thyroid, liver function in hyperthyroidism, 721

Thyroxine, influence on carbohydrate metabolism of experimentally induced hepatic changes; fasting and administration of thyroxine, 46

Tuberculosis, marital; exogenous tuberculous infection of adults, 945

stenosis of superior vena cava due to mediastinal tuberculosis, 759

Turner, K. B.: Low voltage in electrocardiogram; occurrence and clinical significance, 380

Undulant fever, epidemic of subclinical infection with Brucella, 373

Urea clearance test as index of renal function; effect of ingestion of carbohydrate (dextrose), 358

clearance test as index of renal function; studies of normal subjects, 351

clearance test as index of renal function; studies of patients with Bright's disease, 544

clearance test as index of renal function; urea clearance test in relation to other tests and measures of renal function, 556

Uterus, fibromyoma of uterus, cardiac failure, anemia and edema, 306

Vena cava, stenosis of superior vena cava due to mediastinal tuberculosis, 759

Wakeman, A. M.: Chemistry and metabolism in experimental yellow fever in Macacus rhesus monkeys; bromsulphalein liver function test and van den Bergh reaction, 876

Wechsler, H. F.: Variations in total blood lipid in alimentary lipemia, 37

Weiss, S.: Localization of afferent visceral impulses in spinal cord, 470

Wetherby, M.: Chronic arthritis; clinical analysis of 350 cases, 926

Wilbur, D. L.: Intrinsic gastroduodenal lesions as causative factors of hematemesis, 621

Williams, J. L.: Decreased dextrose tolerance in acute infectious disease, 801

Willius, F. A.: Pericarditis: calcification of pericardium, 184

Pericarditis: chronic adherent pericarditis, 171

Pericarditis; fibrinous pericarditis and "soldier's patches," 410

Pericarditis; terminal pericarditis, 415

Pericarditis with effusion, 192

Yellow fever, chemistry and metabolism in experimental yellow fever in Macacus rhesus monkeys; bromsulphalein liver function test and van den Bergh reaction, 876

Youman, J. B.: Endemic nutritional edema; clinical findings and dietary studies, 843

Zerfas, L. G.: Use of liver extract intravenously, report of 10 cases, 27

Ziskin, T.: Clinical significance of electrocardiograms with large Q waves in lead III, 435
